

HERE'S WHAT PATIENTS SAY ABOUT US...

Rose Solano, Manteca, CA

Dr. Cajee is very considerate and thoughtful. He recently pulled a real problem tooth. Now he did some cleaning and made me as comfortable as possible. He is by far my favorite dentist ever. I am very fearful of dentistry and have lots of problems but because he is so sensitive I will continue to come to him. The kids really like him too. The staff is quite friendly as well.

Ismael Hinojosa, Manteca, CA

I have been to many dentists in my life, and have never been as satisfied as I am with [Dr Cajee's] work and attention. Dr. Cajee is very attentive and respectful — total professional.

Shamira Chothia, Irvine, CA

Dr Cajee really took his time to remove the stains on my teeth in the dental cleaning. This is in stark contrast to other dentists/dental hygienists I have visited who rush through the appointment.

Gail Hannon, Manteca, CA

Very, very good treatment. Number one office in my book. I as most people hate going to the Dentist but Dr. Cajee makes it not so terrible.

Suzanne Pereira, Manteca, CA

This has been by far the best dental work and care I have experienced over the previous 35 years. I have been treated gently and with respect. Everyone is helpful and the atmosphere is relaxing. In my previous experience with dentists I have been unable to return with confidence due to my incredibly high levels of anxiety when at the dentist. This is the first time both the dentist and the support staff have worked together to determine how they can best meet my dental needs and help relieve my anxiety. My main dental problem has been a partial bridge (attached to only one tooth) and the need for regular cleaning to address receding gums. My secondary dental health concern is to increase my knowledge on how to maintain or improve my dental health. My problems are being resolved at a pace that I can tolerate. I feel more knowledgeable about the progression of different dental problems and more in control of my dental health using preventive measures along with regular cleaning and dental check ups.

I would recommend your dental services without reservation. I would encourage anyone who hates going to the dentist or who have anxiety to try your office before giving up on going to the dentist.
